Your most valuable asset...

isn't your car, family heirlooms or your home – it's your ability to earn a lifetime of paychecks that finance your and your family's lives. Unfortunately, an accident or serious illness can rob you of your work, your income and your financial stability.

What are your chances of being disabled?

Your plan is to work for as long as you want or need a job. But, amazingly, 43 percent of all people age 40 experience a long-term disability before they reach 65^{*}. Do you have a financial plan if you are hurt or ill and can't work?

What are you risking?

Would you...

Wager your paycheck - or a year's worth of paychecks? Probably not!

Put your home in jeopardy? Not if you could help it!

Risk your family's lifestyle – the children's education, your retirement account or your life's savings? **No!**

Century+ Disability Income Protection – the smart choice

A disability can put everything you've worked for at risk. Now is the time for you to help protect the paychecks that finance your and your family's life and lifestyle. Don't risk being without Individual Disability Income Insurance protection – the stakes are just too high!

Is Social Security an option if you're disabled and can't work?

Maybe not. Social Security follows a strict definition of disability. To be considered disabled under Social Security, you must be unable to perform work that you did before and deemed unable to adjust to other work because of your medical conditions(s). Further, your disability must have lasted or be expected to last for at least one year or to result in death. If your application is approved, there is a sixmonth elimination period before benefits begin². The average Social Security monthly disability benefit is \$1,113³. Would that be enough to pay your bills and out-of-pocket medical expenses?

Partial Disability – If you resume part-time employment immediately after receiving total disability payments, you may receive 50 percent of the policy monthly benefit. Partial disability benefits extend for up to six months.

Waiver of Premium – After you've been totally disabled for 90 days (or your elimination period – whichever is shorter), your premiums are waived for as long as you are totally disabled. Any premiums paid during that period will be refunded.

Home Modification Benefit – We will pay actual costs toward the modification of your primary residence to improve access or use of facilities while you are totally disabled, up to six times the monthly benefit.

Vocational Rehabilitation Benefit – If you are receiving total disability monthly benefits, we may pay for a rehabilitation program designed to help you return to work.

Survivor Benefit – If you die after receiving total disability monthly benefits for at least 12 months, your beneficiary (or estate) will receive a lump sum of six times your monthly benefit.

If your paychecks stopped suddenly because you were disabled and unable to work, how long would your financial cushion last? A year...six months...a month? Chronic diseases (such as heart disease, cancer and diabetes) are leading causes of disability in the U.S.

Chronic diseases account for 70 percent of all deaths in the U.S., or 1.7 million each year.

These diseases also cause one or more limitations in daily living for almost 25 percent of Americans.
